

An Intern Program You Can Scale

Give your clients guided intern housing and a built-in community, without staffing up for the season.

Intern season is high volume and low margin, a wave of first-time movers who all need housing help at once. Most of it lands on your consultants.

What Guide adds to your program

	Housing, Solved	Interns find vetted, furnished short-term places that fit the budget you set.
	Arrive Connected	A community feature lets the cohort meet and find roommates before they arrive.
	Volume Without Headcount	Interns self-serve in the app, so a seasonal spike no longer needs seasonal staff.
	A Reason to Win the Bid	A credible intern offering opens accounts that would otherwise go elsewhere.
	Fits Your Service Lines	Add interns as a tier under your SOW, and nothing else changes.

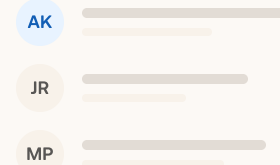

Hours Back on Every Intern Move

Guide handles the housing questions, check-ins, and logistics, saving about 17 consultant hours per intern move. Programs your team places with Relocity have achieved a 76 NPS, a world-class score.
