

A Lump Sum Tier You Can Put Your Name On

Give your clients a guided experience for the population a managed move can't cover.

The cash covers the budget. It leaves the employee to work out the move alone, and leaves your account team with nothing to report.

What Guide adds to your offering

	Guided Every Step	Your clients' employees follow a plan built around their move, so no one goes it alone.
	Housing Within Budget	Neighborhoods and listings that fit the stipend you administer, so the money stretches further.
	Real-Time Visibility	Your team and your client watch every move in one shared view.
	Fewer Exceptions	Guided employees stay on budget, so escalations and out-of-policy spend drop.
	Fits Your Service Model	Add Guide to the lump sum tier you already sell, and nothing else changes.

Rated Near-Perfect by the People Who Move

In one EV manufacturer's lump sum program, relocating employees rated Guide 4.96 out of 5. Relocity-powered programs have achieved a 76 NPS — scores your account team can take into a renewal.
